RESPONSE TO RESTRICTION REQUIREMENT

Responsive to the action mailed July 2, 2003, applicant elects the invention of Group II, claims 21-24, covering methods of assessing the effectiveness of a neurological or psychiatric treatment. The election is made with traverse, because applicants submit that claim 25 should be searched and examined together with claims 21 to 24, as it is a more detailed version of the method of claim 21, and is classified in the same class and subclasses as claim 21.

Please apply any charges or credits to Deposit Account No. 06-1050, referencing Attorney Docket No. 04843-033001.

Respectfully submitted,
